

Project Manager - Healthcare: Sydney / New York

Technology is literally changing the world around us and yes, some people tend to focus on why that change is bad - it makes us uncomfortable; it breaks our status quo, it feeds our uncertainty - but at Orchard we choose to see it differently. Which is why we, at Orchard, rally around a single purpose: to invent better outcomes through creativity and technology. Those better outcomes can only exist in the context of people irrespective of if we label them users, customers, patients, clients or even staff.
