AEM Developer: Sydney / New York

Technology is literally changing the world around us and yes, some people tend to focus on why that change is bad – it makes us uncomfortable; it breaks our status quo, it feeds our uncertainty – but at Orchard we choose to see it differently. Technology can make lives better. It can make businesses better, brands better and experiences better. It can be the change we want to see in the world.

Which is why we, at Orchard, rally around a single purpose: to invent better outcomes through creativity and technology. Those better outcomes can only exist in the context of people irrespective of if we label them users, customers, patients, clients or even staff.

The Opportunity

We're currently on the lookout for a talented AEM Developer to work in our Development team.

We offer a good, fun working environment and all the necessary support and structured training you need to grow your digital career.

Key Function

You will be an outside-the-box thinker with a solid development background across multiple technical disciplines including AEM development and J2EE web application development.

- Work with technology teams to build and maintain web applications using Adobe's Experience Manager CMS to include site architecture, custom components, workflow development.
- Specifically researching, consulting, analysing and evaluating system program needs identifying technology limitations and deficiencies in existing systems and associated processes, procedures and methods
- Creation of Adobe CQ / AEM components, templates & pages from supplied HTML, CSS and JavaScript.
- Specifically testing, debugging, diagnosing and correcting errors and faults, guidelines and quality standards to ensure applications perform to specification.
- Writing and maintaining code to meet system requirements, system designs and technical specifications.
- Integrate websites with web analytics tools

What you can bring

- Experienced Java Developer with knowledge in web framework based development and internet technologies
- Minimum 2 years solid experience in AEM 6.0 and above
- Experience working with CMS platforms, and 5+ years of experience building with CMS platforms
- Ability to write complex programs, analyse code changes and make suggestions to improve code complexity for maintainability and scalability
- Java, J2EE, Spring, Hibernate
- Knowledge of AEM infrastructure
- Experience with the following is desirable but not essential; Continuous integration, deployment management, implementing authentication models e.g. SAML 2.0 and OpenID, integrating AEM with the Adobe Marketing Cloud suite of products specifically Target, Analytics and Campaign
- Show a strong commitment to the Company's core values of Collaboration, Integrity & Curiosity
- Embrace and respect the Company's community and environmental responsibilities
- Exceptional communication skills
- Proven ability of working within a team
- Excellent attention to detail
- Applicants MUST have the right to work within USA

Above all, the successful candidate to join Orchard will be someone who has a strong work ethic driven by creative passion, positive energy and thrives on challenges, alongside a desire to grow with the company!

If you feel like this is the right job for you, would like to take your career to the next level, work in a great cultural environment that allows you to grow and enjoy work, please email your CV and contact details to jobs@orchard.com.au and we will arrange to meet you!

A little about Orchard

We offer an awesome, fun working environment full of culture and energy. We leave our egos at the door and past that door is a super cool office space filled with inspiring people and free crumpets.

We pride ourselves on our work and also our work / life balance. We're 100% committed to you, your career at Orchard and your continued professional and personal development. We offer a rich array of internal and external structured training and education courses as well as ongoing individual wellbeing support through our Employee Assistance Program.

As an agency we fuse enthusiasm, creativity and technology to Invent Better outcomes for leading International and Australian brands such as BI, Zoetis, Schwarzkopf, MSD, GSK, Electrolux, BT, Ikea and Hyundai to name a few.

Invent Better are two little words that define our big approach. It's a belief that creativity and technology are the key to winning in today's digital age, and it's a formula that challenges us to engage with our clients in a way that always pushes us that little bit further every time.
